ADDENDUM NUMBER 3
BID #16-243
NEWTOWN PARK DREDGING PROJECT

To All Prospective Vendors:

To follow is Addendum Number 3 on the Invitation to Bid for the Newtown Park Dredging Project. Please be sure to fax back the "Acknowledgement of Receipt of Addendum #3 as soon as possible.

Questions submitted prior to deadline:

1. Do you have any details on the well size and capacity that can be used to supplement the pond water?

Answer: The City is checking for this information.

2. Is there a plan sheet that shows the final contours of the pond bottom? Or can we get the data showing the sediment thickness testing results?

Answer: Plan sheets attached. These documents are For Information Only and not considered a part of the Contract Documents.

3. Can we assume that the project clock starts upon issuance of Army Corp permits (if required)?

Answer: Contract time will begin with the issuance of a Notice-to-Proceed.

4. Can the contractor partially or completely close the work area for a time period during construction and mobilization and demobilization of equipment?

Answer: The Contractor can close the route temporarily for mobilization/demobilization (hours not days) using a "rolling" or partial closure. Closure of the entire trail is not allowed.

5. Can a mobilization item be added to the bid form?

Answer: Item added. Please see revised Bid Form and Section 01025.

6. Does the ES&PC plan exist or does the contractor have to write it?

Answer: The ESPC plan is included in the approved Construction Plan set. These plans are permitted and ready for the contractor to begin work.

7. What is the anticipated start date? I believe one of the documents said Sept 1st but I'm guessing that is not accurate.

Answer: This is ultimately up to the City; however, I would expect a recommendation for award within 5 days of the bid opening. Notice-to-Proceed will follow as soon as all paperwork is completed.
